Product	INCI	Characteristics / Applications
Active Ingredients		
Dermotensive XHN	Water, Magnesium Gluconate, Prolinamidoethyl Imidazole, Butylene Glycol, Glutamylamidoethyl Imidazole, Palmitoyl Hexapeptide-52, Polyvinyl Alcohol, Lactic Acid, Glycolic Acid, Palmitoyl Heptapeptide-18	Intensive treatment of localized wrinkles and expression lines through a deep action on the mechanisms of skin aging at medium and long term, along with the cosmetic benefit of a visible and immediate superficial effect. Botox like active and anti-aging.
Neolipid Lip Plumper	Oleyl Alcohol (and) Dioleyl Tocopheryl Methylsilanol (and) Centella Asiatica Extract	Volumizer active based on highly purified unsaponifiables of Centella Asiatica with a lipophilic silanol. Stimulates fibroblast metabolism and viability, enhancing collagen and other macro molecules synthesis. Promotes neo-adipogenesis and stimulates adipocyte differentiation.
Neolipid SC Biobarrier	Phospholipids (and) Glycine Soja (Soybean) Oil (and) Glycolipids (and) Glycine Soja (Soybean) Sterols (and) Vitis Vinifera (Grape) Seed Oil (and) Polyglyceryl-2 Sesquioleate	Bio mimetic skin barrier system based on a smart combination of phospholipids, glycolipids and naturals oils for body, hair and scalp care and protection.
Neosome API-TOX	Deionized Water (and) Lysolecithin (and) Glycerin (and) Alcohol (and) Xanthan Gum (and) Bee Venom Extract (and) Helianthus Annuus (Sunflower) Seed Oil (and) Tocopheryl Acetate	Purified apitoxin (bee venom) vectorized trough a specifically adapted delivery system. Apitoxin therapy works to reverse the effects of ageing by encouraging the stimulation of natural collagen and elastin. It increases the local blood circulation which plumps and firms fine lines and wrinkles.
Neosome EM Ultrafill	Water (and) Phospholipids (and) Trehalose (and) Betaine (and) Xanthan Gum	Advanced Delivery System formed by both multi-lamellar liposomal structures and multi-lamellar amorphous structures. Increases the volume of the skin improving the amount of free and bonded water in both, epidermal and dermal layers. Osmotic, superficial and biological moisturizer. Wrinkle reduction, facial folds and lines filler
Neosome NE Derma-Firm	Water (and) PEG-40 Stearate (and) Diethylhexyl Adipate (and) Olea europaea fruit oil (and) C10-18 Triglycerides (and) Lecithin (and) Pentylene Glycol (and) Centella Asiatica Extract	Highly purified unsaponifiables of Centella Asiatica, vectorized through a new delivery technology specific for lipophilic actives. Wrinkle reduction: reduces the depth of wrinkles and expression lines up to 20% in 7 days. Firmness: improve firmness up to 38 % in 3 weeks.
Pro Hyaluronic Complex	Water (and) Dimethylsilanol Hyaluronate (and) Silanetriol (and) Hyaluronic Acid (and) Xanthan Gum (and) Palmitoyl Oligopeptide (and) Glycolic Acid (and) Lactic Acid (and) Polyvinyl Alcohol	Neo-hyalurogenic. Unique, synergistic combination de bio active molecules with proven efficacy in the stimulation and optimization of native hyaluronic production.
Pro Hyaluronic HC	Water (and) Acacia Senegal Gum Extract (and) Dimethylsilanol Hyaluronate (and) Panthenol (and) Silanetriol (and) Sodium Hyaluronate (and) Hydroxypropyltrimonium Hyaluronate	A complete intensive supplement of Hyaluronic Acid for hair care applications. In order to treat the hair fiber at different levels, straightening it, filling and nourishing it deeply and intensively.
Autoemulsifying Bases		
Ecobase Crystal Plus	Glyceryl Stearate (and) Palmitic Acid (and) Cetyl Alcohol (and) Sodium Cocoyl Glutamate (and) Cetyl Palmitate (and) Stearic Acid (and) Hydrogenated Lecithin	Emulsifying system for natural concept in skin care applications. It is based on fatty alcohols and acids plus the benefit of an anionic emulsifier and phospholipids to have a very wide flexibility as well as a high efficiency as a emulsion stabilizer.
Ecobase SB-H	Shea Butter (and) Polyglyceryl-3 Stearate (and) Glyceryl Stearate Citrate (and) Hydrogenated Lecithin(and) Xantan Gum	Nobel emulsifying system for natural and luxury concept in skin care applications. It is based on shea butter, naturals emulsifiers, phospholipids and a natural gum, all of them bio compatible ingredients for giving a rich and nutritious sensory and an outstanding emulsion stabilization performance in active formulations.
Ecobase WW	Ceteareth 20 (and) Dibutyl Adipate (and) Glyceryl Stearate Citrate (and) Cetearyl Alcohol (and) Glyceryl Caprylate (and) Glycerin (and) Cetyl Palmitate (and) Water	Liquid multipurpose emulsifying system designed for cleansing and wet wipes applications in order to have a positive balance cost benefit formulations. It is a micro W/O emulsion liquid concentrated based on natural emollients, waxes and mild emulsifiers with a wide HLB range for a very good stability performance.
Novasil Base EL NF	Cyclopentasiloxane / Dimethicone Crosspolymer / Lauryl PEG/PPG-18/18 Methicone / PEG/PPG-18/18 Dimethicone	Formulation auxiliary for obtaining water – silicone emulsions (W/Si), allowing to reach, depending on the formulation, stable emulsions with an internal aqueous phase concentration of 80 %.
Formulation Solutions		
Nexamide 2 MEA	Cocamide Methyl MEA (and) Cocamide MEA	Natural surfactant derived from monoethanolamine and fatty acids from coconut oil. Replacement of Cocamide DEA with a very
Nexasol C-OX	Water (and) Disodium EDTA (and) Pentasodium Pentetate (and) Sodium Phytate	Stabilizing system for water based formulations containing oxidizable substances. Multi-chelating activity. Particularly suitable for stabilization of Vitamin C and its derivatives and hair dyes intermediates.
Optisoft NEO	Polysilicone-11 (and) Water (and) Laureth-12 (and) Polymethylsilsesquioxane (and) HDI/Trimethylol Hexyllactone Crosspolymer (and) Methyl Methacrylate Crosspolymer	High performing spherical elastomer powder blend in a semisolid form. A controlled particle size for an advanced “easy to use” optical system with an instant soft focus. 3D physical filling effect and blurring on deep wrinkles and expression lines.
Vegel Plus	Xanthan Gum (and) Lecithin (and) Sclerotium Gum (and) Algae Extract (and) Silica	Mixture of natural polymers with an outstanding skin feel and synergistic viscosity and emulsifiers properties. It is a gelling agent providing an amazing silicone-like skin feel and a high resistance to electrolytes, thanks to synergistic combination of phospholipids and natural gums

Product	INCI	Characteristics / Applications
<b>Performance Ingredients</b>		
Soft Milk 5/10 Almond	Water, Sweet Almond Oil, Glycerin, Glyceryl Stearate, Phospholipids, Xanthan Gum, Sodium Cocoyl Glutamate.	Natural vegetal milk made of Almond Oil and Phospholipids. Sweet Almond Oil is one of the best oils for hair and skin care. Sweet Almond Oil has hydrating, emollient, soothing, softening, cicatrizing, revitalizer, anti-inflammatory, anti-dandruff and conditioning properties.
Soft Milk 5/10 Argan	Water, argania spinosa oil , Glycerin, Glyceryl Stearate, Phospholipids, Xanthan Gum , Sodium Cocoyl Glutamate.	Natural vegetal milk made of Argan Oil and Phospholipids. Argan oil is advocated as moisturizing oil, against acne vulgaris and flaking of the skin, as well as for nourishing the hair.
Soft Milk 5/10 Avocado	Water, Persea Gratissima oil , Glycerin, Glyceryl Stearate, Phospholipids, Xanthan Gum , Sodium Cocoyl Glutamate.	Natural vegetal milk made of avocado oil and phospholipids. Rich in anti-oxidants, minerals, essential fatty acids, biotin, vitamins A, B-5 and E.
Soft Milk 5/10 Cherry Coffee	Water, coffea arabica seed oil , Glycerin, Glyceryl Stearate, Phospholipids, Xanthan Gum , Sodium Cocoyl Glutamate.	Natural vegetal milk made of coffee oil and phospholipids. Coffee oil contains Caffeine that stimulates blood flow to the skin. It has a high anti oxidant properties as well as moisturization.
Soft Milk 5/10 Green Coffee	Water, coffea arabica seed oil , Glycerin, Glyceryl Stearate, Phospholipids, Xanthan Gum , Sodium Cocoyl Glutamate.	Natural vegetal milk made of coffee oil and phospholipids. Coffee oil contains Caffeine that stimulates blood flow to the skin. It has a high anti oxidant properties as well as moisturization.
Soft Milk 5/10 Jojoba	Water, simmondsia chinensis seed oil , Glycerin, Glyceryl Stearate, Phospholipids, Xanthan Gum , Sodium Cocoyl Glutamate.	Natural vegetal milk made of Jojoba oil and phospholipids. Jojoba oil has antibacterial properties that help control bacterial growth in the hair follicle. It acts as an anti-inflammatory agent, soothing the irritated skin. When used regularly, Jojoba oil can control acne.
Soft Milk 5/10 Macadamia	Water, macadamia ternifolia seed oil , Glycerin, Glyceryl Stearate, Phospholipids, Xanthan Gum , Sodium Cocoyl Glutamate.	Natural vegetal milk made of macadamia oil and phospholipids. Those fatty acids help to add shine, strengthen, and nourish the hair follicles, which in turn fight off hair loss and brittle strands. Macadamia oil is great for calming the hair of frizz, tangles, and dullness.
Soft Milk 5/10 Olive	Water, Olea europeae (Olive) fruit oil , Glycerin, Glyceryl Stearate, Phospholipids, Xanthan Gum , Sodium Cocoyl Glutamate.	Natural vegetal milk made of Olive oil and phospholipids. Possesses excellent emollient, moisturizing and continioning properties that are appreciated in all type of cosmetics products.
Soft Milk 5/10 Omega V 36	Water, linum usitatissimum (Linseed) Seed Oil , Glycerin, Glyceryl Stearate, Phospholipids, Xanthan Gum , Sodium Cocoyl Glutamate.	Natural vegetal milk made of a mix of omega 3 and 6 oils and phospholipids. The fatty acids in fish oil supply hydration to your skin. Omega-3 fatty acids have anti-inflammatory properties so it is used for psoriasis, non-melanoma skin cancer and melanoma. Also provides strength and shine to fragile or weakened hair.
Soft Milk 5/10 Omega V 63	Water, Glycine Soja Oil (and) Linum Ussitasimun Oil (and) Vitis Vinifera Seed Oil, Glycerin, Glyceryl Stearate, Phospholipids, Xanthan Gum, Sodium Cocoyl Glutamate.	Natural vegetal milk made of a mix of omega 3 and 6 oils and phospholipids. The fatty acids in fish oil supply hydration to your skin. Omega-3 fatty acids have anti-inflammatory properties so it is used for psoriasis, non-melanoma skin cancer and melanoma. Also provides strength and shine to fragile or weakened hair.
Soft Milk 5/10 Sunflower	Water, Helianthus Annuus (Sunflower) Seed Oil , Glycerin, Glyceryl Stearate, Phospholipids, Xanthan Gum , Sodium Cocoyl Glutamate.	Natural vegetal milk made of Sunflower oil and phospholipids. The components of sunflower oil are linoleic acid, oleic acid and palmitic acid, lecithin, carotenoids, tocopherols and appreciable quantities of vitamins A, D and E.
Soft Milk Hair Repair 3	Water (and) Olea Europaea Fruit Oil (and) Argania Spinosa Kernel Oil (and) Butyrospermum Parkii Butter (and) Glycerin (and) Glyceryl Stearate (and) Phospholipids (and) Xanthan Gum and Sodium Cocoyl Glutamate	Soft Milk Hair Repair 3 is a natural milk with high level of phospholipids that provides immediate hydration plus intense nutrition for hair care. Soft Milk Hair Repair 3 is a synergic combination of three selected oils (Olive, Argan and Karite), which results in numerous benefits: excellent penetration, sensory, intense hair repair and promote scalp health.
